Vision

Our vision is to offer an education of high quality which prepares our young people to be highly motivated, positive, independent and well qualified young adults, so that we are the natural choice of secondary school for our community.

As a school specialising in the Performing and Visual Arts, we will create an excitement for the Arts in school and in the wider learning community in order to develop an even more inclusive curriculum that stretches the most able, supports those with learning difficulties, motivates the disaffected and fosters a lifelong interest in the arts.

Aims

- To be a leading comprehensive school, serving our whole traditional community, without selection
- To provide equality of opportunity, offering a first class curriculum to all students and academic success for all
- To provide a challenging curriculum, which provides opportunities for all students to achieve their potential, and which eradicates under-achievement
- To develop attitudes and skills that will enhance our students' ability to work independently, in order to encourage self-discipline, self-confidence and a sense of responsibility
- To develop our students spiritually, morally, socially and culturally, treating them as individuals in a climate of mutual respect, so that they may enter adult life equipped to make a full contribution as responsible citizens and family members
- Through a partnership between students and parents, governors and staff, continuously to improve the quality of all we do.
